SP 2-210 **SMALL-PARK**

Optimize your parking
with Small-Park SP2-210

SP2-210 SMALL-PARK

Do you want to improve the management and monitoring of your indoor parking spaces?

Easy to install, the mini central unit manages **up to 50 parking spaces** and provides real-time control of visitor, disabled (PMR), motorcycle, and electric vehicle spots. It also helps prevent overstaying.

With our dynamic signage, **guide users effortlessly to available spaces** and offer a smooth, intuitive parking experience.

Ideal for property managers, office buildings, or public facilities, it helps you stay in control while providing a modern and user-friendly service.

Compact, connected, and efficient parking management made simple.

Small-Park is the ideal solution to streamline access and enhance the experience from the moment of arrival.

SMART MANAGEMENT FOR 1 TO 50 INDOOR PARKING SPACES
